DARK STAR: H.R. GIGER'S WORLD (R21)
95 minutes

The nightmares of Swiss artist H.R. Giger (left) animated the extraterrestrials in Ridley Scott's *Alien* (1979) and his "biomechanoid" paintings of human-machine-phallus hybrids have appeared on rock albums and countless bedroom posters as well as inspired a devoted following.

This documentary, completed shortly before his death last year, invites the viewer into his studio and – if you can handle it – his psychosexual obsessions.

This screening is the first in the ScumScope festival, organised by thriller-horror fan group Scum.

WHERE: The Projector, Level 5, Golden Mile Tower, Beach Road MRT: Nicoll Highway **WHEN:** Thursday, 8pm **ADMISSION:** \$13 **INFO:** Festival details and bookings at scumcinema.com
